## Cleaning

### Trigger Bottle

With the pre-mixed solution spray the CG20 directly onto the surface or via a clean cloth, allow the solution to penetrate any grease, fat or oils, then wipe the surface clean.

### Buckets

**Manual ClearTrace SmartBlend Dosing System** - firstly, add the required amount of clean fresh water to your selected bucket, from the **ClearTrace SmartBlend Manual Dosing System** locate the dispensing arm into or over the bucket, add 3 - 4 pumps (depending on the size of your selected bucket) of the CG20 to the bucket.

**Automatic ClearTrace SmartBlend Dosing System** - place your selected bucket under the dispensing arm or by holding the dispensing hose into or over the bucket, depress the button on the front of the dosing station and fill the selected bucket with the pre-diluted solution.
