

CHEWING GUM REMOVER

CGR300

TECHNICAL INFORMATION SHEET

PRODUCT DESCRIPTION

CGR300 Chewing Gum Remover is specially formulated for the removal of sticky gum deposits on most surfaces. Its fast acting formula is easy to use and has a powerful action that breaks down even hardened gum deposits. With a high active blend of ingredients, CGR300 Chewing Gum Remover is designed to breakdown the structures of chewing gums enabling it to be removed with ease.

FEATURES AND BENEFITS

- High performance formulation enables the removal of sticky gum deposits.
- Simple to use spot application treatment.
- Powerful formula removes the toughest of hardened gum deposits.
- Effective to use on most surfaces including solvent resistant carpets and fabrics.
- Ideal for use in pubs, bars, schools, leisure centres, cinema's, public and open spaces including masonry, stone etc.

INSTRUCTIONS FOR USE

USE UNDILUTED

Apply directly to the chewing gum surface, ensuring that both the chewing gum and the surrounding solvent-resistant surface are thoroughly wet.

Allow to soak for 5 minutes.

Agitate to remove the softened chewing gum with a scraper or other suitable implement.

Wipe away any surface residue with a damp cloth.
