

DRAIN ENZYME CLEANER MAINTAINER

DE10

TECHNICAL INFORMATION SHEET

PRODUCT DESCRIPTION

DE10 Drain Enzyme Cleaner Maintainer is a high performance advanced liquid concentrated enzymatic product. Specially formulated with a carefully researched selection of enzymes, DE10 Drain Enzyme Cleaner Maintainer maximises the performance of the enzymes in digesting Fats, Oils, Greases and other organic matter which contributes to impeding and blocking drainages systems and grease trap systems. The specially selected enzymes biologically break down the causes of bad odours and blockages.

FEATURES AND BENEFITS

- An high performance Enzymatic System for use in kitchens and the food processing industry.
- Biologically treats Grease Traps, Drains and Gullies by digesting animal fats, vegetable oils, cooking grease, protein, starch and starch based thickeners.
- Fragrance free.
- pH neutral and is safe for use in Drains, Septic Tanks and Cesspits.
- Can be used manually or through auto dilution systems.

INSTRUCTIONS FOR USE

Auto Dilution System

Using a **Battery Operated or Mains Fed DD1 Drain Dosing Unit** to automatically dispense the DE10 Drain Enzyme Cleaner Maintainer each night into the system is the most efficient way of maintaining your waste system. The auto system dispenser is electronically operated with the ability to dose the products automatically at a controlled dosage rate at a set time. The DE10 Drain Enzyme Cleaner Maintainer is dispensed after the main liquid flow through the drain system is finished, this maximises the time that the enzymes are in contact with the waste build-up from the days activities.

HEALTH & SAFETY

HAZARD AS SUPPLIED:

Causes Eye Irritation.
Wear Gloves For Prolonged Use.

HEALTH & SAFETY

HAZARD WHEN USED AT RECOMMENDED DILUTION:

Causes Eye Irritation.
Wear Gloves For Prolonged Use.

PACK SIZES

SKU	Pack Size
571053	20L
571052	2 x 5L

Concentration Levels

1. Standard Operations - Use at a concentration of 150ml twice daily at optimum times (between midnight and 4am).
2. High Use Operations - Use at a concentration of 240ml twice daily at optimum times (between midnight and 4am).

Manual Dilution

1. Pour the DE10 Drain Enzyme Cleaner Maintainer into a sink, drain or grease trap.
2. Pour half a litre of warm or cold water into the sink, drain or grease trap to allow free movement of the enzymatic concentrate.

Concentration Levels

1. Standard Operations - Use at a concentration of 150ml twice daily at optimum times (between midnight and 4am).
2. High Use Operations - Use at a concentration of 240ml twice daily at optimum times (between midnight and 4am).

SAFE HANDLING AND STORAGE

See visual information on page 1.

Full guidance on the handling and safe use of the product can be obtained from the Safety Data Sheet.

Store in original container.

Avoid extremes of temperature.

TECHNICAL INFORMATION

Appearance: Colourless Liquid.

pH: 7.0.

Odour: Barely Perceptible.

Solubility: Fully miscible in water.

The above data is typical of normal production and should not be taken as a specification.

MATERIALS COMPATIBILITY

Under recommended conditions of use DE10 – Drain Enzyme Cleaner Maintainer is suitable for use on most materials commonly encountered in food/catering environments.

OTHER INFORMATION

Very toxic to aquatic life.
