Manual Use

1. Place the laundry items into the laundry machine paying attention not to overload the laundry machine drum.
2. Make sure the items placed into the laundry machine drum are loosely placed allowing air to distribute around them.
3. Fill the laundry detergent tray with the appropriate measure of LPD200 Premium Laundry Detergent.
4. Select your wash cycle and start the machine.
5. Once the wash cycle has completed, remove the items from the machine wash drum into an appropriate receptacle.
6. Once empty, check the laundry machine drum for any stray laundry items that may have been left behind including any foreign objects such as coins, keys etc.
7. Wipe down the inside of the laundry machine drum and around the door seals with an appropriate disinfectant such as ClearTrace SD50 Broad Spectrum Disinfectant to kill any germs left behind.
